Student Name: _____

2008-09 Typing Log

Students need to practice typing 3 – 5 times per week for at least 5 – 10 minutes each time. Typing practice can include: typing up an assignment for another teacher, playing a typing game, or typing the alphabet. Students should NOT be looking at their hands when typing and should be using proper typing skills. Parents will need to sign off on the student's typing log to confirm the student has met these requirements. Logs will be checked once a week at the beginning of class.
